THE UNIVERSITY OF MIAMI MISSION STATEMENT

The University of Miami's mission is to transform lives through education, research, innovation, and service.

We are committed to freedom of inquiry—the freedom to think, to question, to criticize, and to dissent. We will pursue excellence in our research and educational missions with the single-mindedness that marks great commitments. We will prepare our students for rewarding lifelong careers and will instill in them a continued and permanent dedication to the search for knowledge and the search for truth. We will provide them with the foundations for ethical citizenship and service to others, a respect for differences among people, and a commitment to high standards of thought and communication. We will provide service to our community and beyond, including the delivery of high-quality, compassionate care through an academic health system. We will strive to transform the world in positive ways through innovative education, impactful research and scholarship, and the translation of knowledge into solutions.

Founded in 1925 by a group of Miami citizens who believed that an institution of higher learning was necessary for the development of their young and growing community, the University has matured into a major research university and academic health system. Located within one of the most dynamic and multicultural cities in the world, the University is a distinctive community with a variety of races, ethnicities, customs, genders, and faiths. Its geographic location uniquely positions the University to be both local and global in outlook and outreach.

We aspire at the University of Miami: to be a global university with an intentionally hemispheric strategy, pursuing inclusive engagement as a bridge across the Americas to the rest of the world; to be an excellent university, striving to achieve the highest standards of performance in every aspect of our work; to be a relevant university, connecting scholarship to real-world solutions; and to be an exemplary university, offering a model to society through the steadfast achievement of our mission.

AN INTRODUCTION TO THE UNIVERSITY OF MIAMI

History:

Although many people over a period of years played a role in the establishment of the University of Miami, it was William Jennings Bryan who first promoted the need and stimulated a community planning effort for a university to serve the growing Miami area. In 1925 the University received its charter and in the following year enrolled its first students. On March 18, 1926, Bowman Foster Ashe was named executive secretary and subsequently president of the University by the Board of Regents.

The cornerstone of the Merrick Building, which was to house classrooms and administrative offices, was laid on February 4, 1926, on land donated by George E. Merrick, founder of the city of Coral Gables. Merrick also donated \$5 million to be matched by other sources. When Merrick's donation could not be matched, the work that had begun on the Merrick Building ceased and a decision was made to convert the partially constructed Anastasia Hotel into temporary quarters for the University. In the rush to finish the Anastasia Building before the announced opening of the University in October, cardboard-covered partitions were used to separate rooms, leading to the name "Cardboard College." Construction of the Merrick Building would not resume until 1949, 23 years after it started.

In September, just before the first classes were to begin, the great hurricane of 1926 swept through South Florida, causing destruction that left the University further in debt. In spite of tremendous adversity, the University managed to open its doors on October 15, 1926, offering programs in the liberal arts and music to 560 students. The School of Law was added in 1928 and the Schools of Business and Education were created in 1929.

The Florida depression that followed the collapse of the real estate market and the national depression that started in 1929 added further financial burdens that brought the survival of the University into question. President Ashe had to resort to borrowing on his personal insurance policy to pay faculty salaries. Still in debt, the University filed a petition for bankruptcy in 1932. Determined to keep the University going, President Ashe and others formed

a new corporation, The University of Miami, Inc., and in 1934, at an auction, bought back the University's property for \$15,758.84.

The 1940s were a time of great change at the University. During World War II, President Ashe arranged to have University facilities available for training U.S. Army and British Royal Air Force personnel. In addition, the war gave the University reason to expand its facilities. The Graduate School was created in 1941 and the Marine Laboratory was formally established in 1943. In 1947, shortly after the war ended, the School of Engineering was founded, and the University began the excavation of Lake Osceola.

Growth continued at the University in the 1950s. The School of Medicine, the first to be accredited in the state of Florida, was founded in March of 1952. After President Ashe fell ill and subsequently died in December of 1952, Jay F.W. Pearson was named the second president of the University in January of 1953. President Pearson served in that capacity until 1962. During his tenure, the first computer on the University campus was installed in the Engineering Building and the Board of Trustees removed all racial barriers from admission policies.

Henry King Stanford became the University's third president on April 18, 1962. The Department of Nursing, which originated as a department in the College of Arts and Sciences, became the School of Nursing in 1968. Also, in 1968, with a gift from The Rosenstiel Foundation, the University obtained a deed for 9.7 acres of land on Virginia Key. Shortly after these events, in 1969 the Institute of Marine Science (formerly the Marine Laboratory) became a school and several months later was renamed the Rosenstiel School of Marine and Atmospheric Science. Although continuing education classes had been offered since 1926, the University formally founded the School of Continuing Studies in 1974.

Edward T. Foote II was inaugurated as the University's fourth president in 1981. Under his leadership, the University was selected to shelter a chapter of Phi Beta Kappa, the nation's oldest and most prestigious honor society. Three additional schools were also founded in the 1980s: the School of Architecture (1983), the Graduate School of International Studies (1983), and the School of Communication (1985). In 1997, the Graduate School of International Studies was reorganized to offer undergraduate degree programs and was renamed the School of International Studies. President Foote also led a capital campaign that raised more than \$500 million, at the time the third largest campaign in American higher education.

Donna E. Shalala became the University's fifth president in 2001 and served 14 years until stepping down on June 1, 2015. At the time of her inauguration, the University celebrated its 75th anniversary. In 2002, the School of International Studies was combined with the College of Arts and Sciences. The following year, the School of Continuing Studies and its responsibilities were moved into the Division of Enrollments and Continuing Studies. In October 2003, the University announced Momentum, The Campaign for the University of Miami, a billion-dollar effort to accelerate progress, empower learning and discovery, and intensify our impact on people in our city, across the country, and around the world. In January 2006, the goal was increased to \$1.25 billion, and by its close the campaign raised \$1.4 billion. In 2007, the University purchased Cedars Medical Center, a 560-bed facility located in the Miami Health District just across from the Miller School of Medicine, and renamed it UHealth Tower. That same year the University of Miami Health System (UHealth) was launched. In 2012, the University announced the launch of Momentum2: The Breakthrough Campaign for the University of Miami, which raised a towering \$1.6 billion a year ahead of schedule by May of 2015, transforming the face of the University yet again with new buildings and labs, scholarships for students who might not otherwise be able to attend college, and a brand-new group of talented and ambitious researchers and scholars with the knowledge to not only study global problems, but also solve them.

Dr. Julio Frenk, a noted leader in global public health and a renowned scholar and academic, was named the sixth president of the University of Miami in April 2015. He assumed his post on August 16, 2015, and during his first 100 days on campus launched an inclusive listening exercise, inviting students, faculty, staff, alumni, donors, and community leaders to share their ideas about the University of Miami and its future. That exercise led to the development of a comprehensive strategic plan, the Roadmap to Our New Century, which is guiding the University down new avenues of opportunity and across new geographic and intellectual borders, while ensuring a sustainable platform for success. The University embarked on a new approach to research in the basic and applied sciences by announcing the launch of the Frost Institutes for Science and Engineering. Funded by a landmark \$100 million gift from longtime supporters Phillip and Patricia Frost, the Frost Institutes will encompass a cluster of

cross-disciplinary institutes focused on problem-based discovery. The Lennar Foundation Medical Center, part of UHealth, opened on the Coral Gables Campus in 2016. The 206,000-square-foot diagnostic and treatment center provides the local community more convenient access to world-class medical care provided by University of Miami physicians and specialists. Further distinguishing UHealth's preeminence as South Florida's only academic health system, the Sylvester Comprehensive Cancer Center received the prestigious National Cancer Institute designation in 2019, making it one of only two NCI-designated centers in the state of Florida, and in 2022 the World Health Organization designated Sylvester as the first WHO Collaborating Centre for Cervical Cancer Elimination. The University opened Lakeside Village, an on-campus residential community designed to transform the living and learning experience, in August of 2020. The 12-acre village is comprised of 25 interconnected buildings and a multitude of outdoor spaces. In the fall of 2021, the University launched Ever Brighter, its most ambitious fundraising campaign ever at \$2.5 billion—and the largest of any private institution in Florida—that already is accelerating its drive to shape a brighter future for students, the community, health, and the health of the planet.

Overview:

The University is a private not-for-profit institution and has been classified by the Carnegie Commission as a Doctoral University with Highest Research Activity (R1). The University's 12 colleges and schools offer the following areas of study: 138 bachelors, 140 masters, and 67 doctoral (62 research/scholarship and 5 professional practice) programs.

Campuses and Facilities:

Three UM campuses and the Richmond Facility incorporate over 200 University-owned buildings totaling over 12 million gross square feet on over 400 acres of land.

Coral Gables: The Main campus, located on 240-acres in the City of Coral Gables, houses two colleges and seven schools with 120 buildings totaling 5,430,205 gross square feet (GSF) of academic facilities and 1,359,759 GSF in structured parking.

Several new facilities have opened on the Coral Gables campus this past year – Lakeside Student Village provides 1,100 beds for students in a state of the art building, the Student Services Building is a “one-stop” center for student facing service departments, the Klotz Indoor Batting Facility allows for year-round operations for the baseball team, and a new research greenhouse that supports the mission of the Gifford Arboretum and the College of Arts and Sciences.

Projects under construction include the new Phillip & Patricia Frost Institute for Chemistry & Molecular Science for the College of Arts and Sciences, the Knight Recital Hall for the Frost School of Music, and a new utility plant to serve campus infrastructure needs. Centennial Village, the second phase of student housing, and a new location for the Theater Arts program are both in the planning stage.

Medical Campus: The Leonard M. Miller School of Medicine campus consists of 70 acres within the 153-acre University of Miami/Jackson Memorial Medical Center complex. The medical campus includes the University of Miami Health System (UHealth), which comprises Sylvester Comprehensive Cancer Center, Bascom Palmer Eye Institute, and UHealth Tower, operating within the University of Miami Hospital and Clinics (UMHC). Affiliated hospitals include Jackson Memorial Hospital, Holtz Children's Hospital, the Miami Veterans Affairs Medical Center, and multiple partner hospitals that form the Miller School's Regional Medical Campus. About three dozen UHealth outpatient clinics are located in Miami-Dade, Broward, Palm Beach, and Collier counties. The Lennar Foundation Medical Center is a 206,000-square-foot multispecialty ambulatory care facility on UM's Coral Gables campus. Miller School faculty conduct nearly 2,000 research projects, and close to 1,400 UHealth physicians represent more than 100 specialties and subspecialties, with outcomes that are among the best in the nation.

Rosenstiel School Campus: As one of only a few subtropical research institutions in the continental United States, the [Rosenstiel School of Marine and Atmospheric Science](#) has grown into one of the world's premier school of its kind since its founding in 1943. Through transformational research, dynamic interdisciplinary academics, and the unwavering support and establishment of sound environmental policy, we study Earth's great mysteries, improve the quality of human life, and educate our students, the public, and tomorrow's scientific leaders.

Located on an 18-acre waterfront campus at the edge of Biscayne Bay on Virginia Key, the School's main campus is part of a 65-acre marine research and education park that includes two U.S. Department of Commerce National Oceanic and Atmospheric Administration (NOAA) research laboratories and the MAST Academy, the Miami-Dade County magnet high school for marine science and technology. The campus infrastructure includes an 85,000 square-foot Marine Technology and Life Sciences Seawater Complex (MTLSS). The complex includes the one-of-a-kind Alfred C. Glassell Jr. SURge-STRUCTure-Atmosphere-Interaction (SUSTAIN) air-sea interaction tank. SUSTAIN can simulate 3-D wind-wave flow and surge produced by Category 5 hurricane force winds in complex coastal topography. The Marine Life Sciences building, also located within the complex, provides a dedicated space for the study of marine animals, the critical connections between oceans and human health and the impacts of climate change on marine organisms and ecosystems. The MTLSS was made possible thanks to a federal grant from the National Institute of Standards and Technology (NIST), in addition to generous philanthropic gifts.

The Rosenstiel School operates CSTARS (Center for Southeastern Tropical Advanced Remote Sensing) located on the Richmond campus in southern Miami-Dade County. CSTARS conducts research with remotely sensed data received from earth-orbiting satellite systems. Our research and education infrastructure are strengthened by the School's Broad Key research station, a 63-acre island located in the northern Florida Keys. The facility provides our students and our world-class scientists with an ideal platform to launch field courses and conduct research that will help us to better understand Florida's ever changing and complex marine ecosystems.

Richmond Facility: The Richmond Facility, established in 2001, is a 76-acre site that houses research facilities for the Rosenstiel School's Center for Southeastern Tropical Advanced Remote Sensing (CSTARS) and Richmond Satellite Operations Center (RSOC).

Presidents:

Bowman Foster Ashe	(1926-1952)
Jay F.W. Pearson	(1953-1962)
Henry King Stanford	(1962-1981)
Edward T. Foote II	(1981-2001)
Donna E. Shalala	(2001-2015)
Julio Frenk	(2015-)

Accreditation:

Institutional membership accreditation is maintained with Southern Association of Colleges and Schools Commission on Colleges. In addition, the University of Miami holds accreditation from 23 other professional agencies that recognize specific programs:

Accreditation Board for Engineering and Technology Engineering Accreditation Commission (ABET-EAC)
 Accreditation Council for Graduate Medical Education (ACGME)
 American Bar Association (ABA)
 American Dental Association Commission on Dental Accreditation (ADA-CODA)
 American Music Therapy Association (AMTA)
 American Nurses Credentialing Center's Commission
 American Physical Therapy Association Commission on Accreditation in Physical Therapy Education (APTA-CAPTE)
 American Psychological Association (APA)
 Association to Advance Collegiate Schools of Business International (AACSB Intl)
 Commission on Accreditation of Athletic Training Education (CAATE)
 Commission on Accreditation of Healthcare Management Education (CAHME)
 Commission on Accreditation of Medical Physics Education Programs, Inc. (CAMPEP)
 Commission on Collegiate Nursing Education (CCNE)
 Commission on English Language Program Accreditation (CEA)
 Council on Accreditation of Nurse Anesthesia Educational Programs (COA)
 Council on Education for Public Health (CEPH)
 Education Quality Accreditation Agency (EQUAA)
 EFMD Quality Improvement System (EQUIS)
 Florida Department of Education (FDOE)

Liaison Committee on Medical Education (LCME)
National Architectural Accrediting Board, Inc. (NAAB)
National Association of Schools of Music (NASM)
Society for Simulation in Healthcare

Faculty and Academic Life:

Of the full-time regular faculty, 99% hold a doctorate or other terminal degree, and 82% are full-time faculty. The student-to-faculty ratio is approximately 13 to 1. Fifty percent of classes for undergraduates have 17 or fewer students; 75% have 29 or fewer students.

Dual-Degree Programs:

The University offers dual-degree programs for accelerated undergraduate and graduate study in biochemistry and molecular biology, biology, chemistry, computer science, exercise physiology, history, Latin American studies, law, mathematical finance, marine geology, and more. For more information on these programs, visit miami.edu/dualdegree.

New First-Year Student Standings:

Out of those reporting a high school rank, 40% graduated in the top 5%, and 65% graduated in the top 10%. Mean ACT is 32 and SAT is 1380*.

*Mid-range mean based on official SAT component scores reported to external entities (incl. IPEDS, CDS, US News, etc.)

Study Abroad:

Students can apply their financial aid and scholarship to semester programs, including University of Miami on location in Prague, Czech Republic; Paris, France; Rome, Italy; Galapagos Islands, Ecuador; Cape Town, South Africa; Barcelona, Spain; Shanghai, China; and a multilocation program in Argentina and Chile, as well as exchange-partner programs in more than 35 countries. Faculty-led study abroad programs take place during intersession, spring break, and summer.

Alumni:

Alumni live in all 50 states and 173 countries. There are 103,194 alumni residing in Florida, including more than 53,636 in Miami- Dade County. There are more than 218,817 alumni in the University's history.

Honors Program

More than 900 undergraduates participate in the Foote Fellows Honors Program.

Greek Life Society

Approximately 2,600-degree undergraduate students are members of the Greek Life community, including upper-class new members. Because the University defers membership in a sorority or fraternity for first-year students until after the student has earned at least 12 hours of academic credit, first-year students are not included in this count. The following 27 fraternities and sororities have chapters at the University:

Fraternities:

Alpha Epsilon Pi
Alpha Sigma Phi
Beta Theta Pi
Lambda Chi Alpha
Phi Delta Theta
Pi Kappa Alpha
Pi Kappa Phi
Sigma Alpha Epsilon
Sigma Chi
Sigma Phi Epsilon
Tau Kappa Epsilon

Sororities:

Alpha Delta Pi
Chi Omega
Delta Delta Delta
Delta Phi Epsilon
Pi Beta Phi
Sigma Delta Tau
Zeta Tau Alpha

National Pan-Hellenic Council:

Alpha Phi Alpha
Delta Sigma Theta
Kappa Alpha Psi
Omega Psi Phi
Phi Beta Sigma
Sigma Gamma Rho
Zeta Phi Beta

Multicultural Council:

Delta Epsilon Psi
Lambda Theta Alpha

Sports:

The University has competed in intercollegiate athletics since 1926 and is now a member of the Atlantic Coast Conference. The Hurricanes field 18 teams across men's and women's athletics and have won 21 team national championships and 83 individual national titles over their illustrious history. University of Miami student-athletes posted a graduation success rate of 94% in 2020-21, compared with the national average of 90%.

Men's competition includes baseball (1982, 1985, 1999, 2001 national champions), basketball (NCAA appearances in 1960, 1998-2000, 2002, 2008, 2013, 2016-18; Sweet 16 in 2000, 2013, 2016), cross country, diving (23 NCAA individual champions), football (1983, 1987, 1989, 1991, 2001 national champions), tennis (1943-1945, 1987 NCAA singles champions; 1945 & 1970 NCAA doubles champions; 27 NCAA appearances since 1977 including Sweet 16 in 2009), indoor track and field (1998 NCAA individual champion; 2006-2011, 2013-2015 ACC individual champions), and outdoor track and field (1996 NCAA individual champion; 2006-2008, 2010-2014, 2016 ACC individual champions).

Women's competition includes basketball (13 NCAA appearances), cross country, golf (1970, 1972, 1977, 1978, 1984 national champions); rowing, soccer (five NCAA appearances), swimming and diving (1975-1976 national team champions; 1974-1978, 1989, 1999-2000, 2008 and 2011 national individual champions; 2005-2006 and 2012 ACC individual champions), tennis (NCAA doubles runner-up in 1988; 1977, 1986 national doubles champions; NCAA Elite Eight in 1982, 1984-1986, 2004, 2006-2007, 2009-2013; NCAA individual singles champion in 2007 and 2019; NCAA runner-up in 2009 and 2021), indoor track and field (1992, 1995, 2005, 2007-2009, 2017 and 2019 NCAA individual champions; 2005, 2006, 2016, 2017 ACC Champions, and third at 2005 NCAA Championship), outdoor track and field (1993-1995, 1999, 2004-2006, 2008-2009, 2011 NCAA individual champions; 2005, 2006 and 2018 ACC Champions; seventh at 2006 NCAA Championship), and volleyball (2002 NCAA Sweet 16, nine NCAA tournament appearances).

Computing Center:

The University of Miami (UM) computing center facilities host enterprise and departmental systems in support of academic, clinical, and research initiatives, including email, web hosting, distributed file systems, cloud computing and storage, and high-performance computing systems. There are over 60 computer labs located in the residential colleges, libraries, schools, and colleges. The University provides pervasive indoor and outdoor wireless network coverage for faculty, students, and staff throughout the Coral Gables, Miller School (Medical), and Rosenstiel campuses for access to University systems and the Internet. UM's network infrastructure supports over 46,000 devices connected to the wired network, and over 150,000 unique wireless devices (including guests) on a monthly basis.

The UM Institute for Data Science and Computing (IDSC) provides a cyber-infrastructure that addresses major research challenges. To date, more than 1,500 University of Miami faculty, students, and research staff have collaborated with IDSC on a diverse, and often interdisciplinary, set of projects—many funded by highly competitive research grants. IDSC provides extraordinary intellectual, hardware, and software resources to our partners across the entire University, and beyond, including national and international partners who work in fields such as: smart cities, earth systems, and digital health to name a few.

With expertise in seven research focus areas and two technology platforms (AI and Machine Learning, Creative Computing, Digital Health, Data Ethics, Earth Systems, Information Design, and Smart Cities) and two technology platforms (Advanced Computing, and Software Engineering), IDSC enables the effective and efficient dissemination of information and offers high-level data management and the creation of custom software solutions. Recognizing the central role of an ever-growing body of data, IDSC supports a very large state-of-the-art data storage system. Triton, our largest supercomputer, is UM's first GPU-accelerated high-performance computing (HPC) system, representing a completely new approach to computational and data science. Focused on machine learning and data analytics, Triton gives researchers even more flexibility for their work. In addition, the University is the first higher-ed site with AT&T 5G Sub6 and Millimeter Wave integrated with AT&T Mobile & Edge Computing (MEC).

Development:

In FY21, contributions reached \$200.6 million in total private cash, gifts, and grants.

Budget:

The FY 2022 Budget is \$4.2 billion, with \$3.3 billion projected for the medical campus. At the end of FY21, the endowment for the University was \$1.39 billion

Degree Awarded:

Bachelor of Architecture (B.Arch.)
Bachelor of Arts (B.A.)
Bachelor of Arts in Marine Affairs (B.A.M.A.)
Bachelor of Arts in Music (B.A.M.)
Bachelor of Business Administration (B.B.A.)
Bachelor of Fine Arts (B.F.A.)
Bachelor of General Studies (B.G.S.)
Bachelor of Liberal Arts (B.L.A.)
Bachelor of Music (B.M.)
Bachelor of Science (B.S.)
Bachelor of Science in Accounting and Finance (B.S.A.F.)
Bachelor of Science in Aerospace Engineering (B.S.A.S.E.)
Bachelor of Science in Architectural Engineering (B.S.A.E.)
Bachelor of Science in Athletic Training (B.S.A.T.)
Bachelor of Science in Biological Sciences (B.S.B.S.)
Bachelor of Science in Biomedical Engineering (B.S.B.E.)
Bachelor of Science in Business Administration (B.S.B.A.)
Bachelor of Science in Civil Engineering (B.S.C.E.)
Bachelor of Science in Communication (B.S.C.)
Bachelor of Science in Computer Engineering (B.S.Cp.E.)
Bachelor of Science in Computer Science (B.S.C.S.)
Bachelor of Science in Education (B.S.Ed.)
Bachelor of Science in Electrical Engineering (B.S.E.E.)
Bachelor of Science in Engineering Science (B.S.E.S.)
Bachelor of Science in Environmental Engineering (B.S.En.E.)
Bachelor of Science in Exercise Physiology (B.S.Ex.P.)
Bachelor of Science in Health Science (B.S.H.S.)
Bachelor of Science in Industrial Engineering (B.S.I.E.)
Bachelor of Science in Marine and Atmospheric Science (B.S.M.A.S.)
Bachelor of Science in Mechanical Engineering (B.S.M.E.)
Bachelor of Science in Nursing (B.S.N.)
Bachelor of Science in Public Health (B.S.P.H.)
Bachelor of Social Work (B.S.W.)

Artist Diploma (A.D.)
Master of Accounting (M.A.C.C.)
Master of Architecture (M.Arch.)
Master of Arts (M.A.)
Master of Arts in Anthropology (M.A.A.)
Master of Arts in Economics (M.A.E.)
Master of Arts in Liberal Studies (M.A.L.S.)
Master of Arts in Teaching (M.A.T.)
Master of Business Administration (M.B.A.)
Master of Clinical Medical Science (M.C.M.S.)
Master of Construction Management (M.C.M.)
Master of Fine Arts (M.F.A.)
Master of Health Administration (M.H.A.)
Master in International Business Studies (M.I.B.S.)
Master of Laws in Inter-American Law (LL.M.A.)
Master of Laws in Comparative Law (LL.M.C.L.)
Master of Laws in Entertainment, Arts & Sports Law (LL.M.S.)

Master of Laws in Estate Planning (LL.M.E.)
 Master of Laws in International Arbitration (LL.M.I.A.)
 Master of Laws in International Law (LL.M.I.)
 Master of Laws in Ocean and Coastal Maritime Law (LL.M.O.)
 Master of Laws in Real Property Development (LL.M.P.)
 Master of Laws in Taxation (LL.M.T.)
 Master of Laws in Taxation of Cross-Border Investment (LL.M.C.)
 Master of Music (M.M.)
 Master of Music Education (M.M.E.)
 Master of Professional Accounting (M.Pr.Acc.)
 Master of Professional Science (M.P.S.)
 Master of Public Administration (M.P.A.)
 Master of Public Health (M.P.H.)
 Master of Public Policy (M.P.P.)
 Master of Real Estate Development & Urbanism (M.R.E.D.U.)
 Master of Science (M.S.)
 Master of Science in Accountancy (M.S.Acc.)
 Master of Science in Architecture (M.S.A.)
 Master of Science in Architectural Engineering (M.S.A.E.)
 Master of Science in Athletic Training (M.S.A.T.)
 Master of Science in Biomedical Engineering (M.S.B.E.)
 Master of Science in Business Analytics (M.S.B.A.)
 Master of Science in Civil Engineering (M.S.C.E.)
 Master of Science in Education (M.S.Ed.)
 Master of Science in Electrical and Computer Engineering (M.S.E.C.E.)
 Master of Science in Finance (M.S.F.)
 Master of Science in Industrial Engineering (M.S.I.E.)
 Master of Science in Management Studies (M.S.M.S.)
 Master of Science in Mathematical Finance (M.S.M.F.)
 Master of Science in Mechanical Engineering (M.S.M.E.)
 Master of Science in Music Engineering Technology (M.S.M.E.T.)
 Master of Science in Nursing (M.S.N.)
 Master of Science in Ocean Engineering (M.S.O.E.)
 Master of Science in Public Health (M.S.P.H.)
 Master of Science in Taxation (M.S.Tax.)
 Master of Sports Administration (M.Sp.A.)
 Master of Urban Design (M.U.D.)

 Specialist in Education (Ed.S.)
 Doctor of Education (Ed.D.)
 Doctor of Juridical Science (S.J.D.)
 Doctor of Medicine (M.D.)
 Doctor of Musical Arts (D.M.A.)
 Doctor of Philosophy (Ph.D.)
 Doctor of Philosophy/Doctor of Medicine (Ph.D./M.D.)
 Doctor of Physical Therapy (D.P.T.)
 Doctor of Nursing Practice (D.N.P.)
 Doctor of Public Health (Dr. P.H.)
 Juris Doctor (J.D.)

Schools and Colleges:

School of Architecture: The School of Architecture, founded in 1983, offers accredited professional undergraduate and graduate degrees in architecture and several post-professional graduate degrees. Programs include the professional Bachelor of Architecture (B.Arch) and Master of Architecture (M.Arch), the post-professional Master of Science in Architecture (M.S.A) with two possible tracks- Architectural Design and Architectural Studies, the Master of Urban Design (M.U.D), the Master of Construction Management (M.C.M), and the Master of Real Estate Development and Urbanism (M.R.E.D.U.), an interdisciplinary one-year graduate program that draws on the real-life experience of developers-in-residence and faculty support from the School of Business Administration and School of Law, as well as the School of Architecture. Six-year joint degree programs include the Bachelor of Science in Architectural Engineering and Master of Architecture (B.S.A.E./M.Arch) and the Bachelor of Architecture and Master of Business Administration (B.Arch/M.B.A.).

Curricular areas of focus include: Urban Design, Planning and Real Estate Development, Construction Management, Technology and Computation, Coastal Resilience, Health and the Built Environment, Historic Preservation and Adaptive Use, Classical and Traditional Design, Housing and Hospitality Design, Building in the Caribbean, Latin America and the Tropical World, Architectural History and Theory. Faculty and students are actively engaged in interdisciplinary research with numerous Schools and Centers including the Miller School of Medicine, The Leonard and Jayne Abess Center for Ecosystem Science and Policy and the Center for Computational Science.

The Center for Urban and Community Design (CUCD), the School's outreach program, provides students with hands-on experience in community improvement nationally and internationally. More than eighty percent of enrolled students participate in study-abroad programs in Europe, Asia, the Caribbean basin, and Latin America. The School sponsors fall and spring semester programs in Rome, providing an intensive experience in design, theory, history of architecture and travel within Italy.

Facilities at the School of Architecture include studio workspace for each student within both the historic studio buildings and the new Thomas P. Murphy Design studio building, an architecture reference library linked to university-wide resources, a computer laboratory, a digital fabrication laboratory, a model shop, RAD-UM research lab providing expertise for project-based research on the spatial ramifications of embedded technology, the new B.E. & W. R Miller Build Lab, and the Jorge M. Perez Architecture Center housing lecture and exhibit facilities.

College of Arts and Sciences: Founded at the University's inception in 1925 and housed in 21 buildings located throughout the Coral Gables campus, the College of Arts and Sciences enrolls around 3,900 undergraduate and 630 graduate students across twenty departments and fifteen interdisciplinary programs. Among them, seventeen departments offer graduate degrees in the arts, humanities, natural sciences, and social sciences. The College has over 440 full-time faculty, who teach courses to all undergraduate students at the University. These faculty include award-winning teachers and research scholars, recognized nationally and internationally in their disciplines. They include editors of prominent science journals, fellows of numerous professional societies, prize-winning creative writers and playwrights, and members of important government research review and advisory boards.

The College of Arts & Sciences is committed to interdisciplinarity and collaboration across academic areas. To that end, several of the majors available to undergraduates in the College are offered in partnership with other schools and colleges at the University, including: Neuroscience, Microbiology & Immunology, Biochemistry & Molecular Biology, and Biochemistry & Nutrition offered in cooperation with the Miller School of Medicine; Economics, offered in cooperation with the Miami Business School; and Ecosystem Science & Policy offered in cooperation with the Leonard and Jayne Abess Center for Ecosystem Science & Policy. Incoming first-year students who meet specific academic criteria are offered admission into two elite interdisciplinary honors programs offered exclusively by the College: da Vinci and PRISM. The da Vinci program encourages students to explore interdisciplinary connections between the arts, humanities, and sciences by emphasizing the distinctive elements that humanities classes can offer. PRISM, the Program for Integrated Science and Mathematics, is a vibrant learning environment for top first-year students interested in the natural sciences, offering special events, small inquiry-based

labs, and academic support. In addition, students interested in designing their own interdisciplinary course of study may be eligible to pursue an Independent Major, in which they work closely with a small committee of faculty members to design coursework and a capstone experience unique to their area of inquiry.

For students who seek to expand their academic plans to include graduate study, the College offers a variety of accelerated, 5-year bachelors/masters programs in Biology (BS/MS), Chemistry (BS/MS), Computer Science (BS/MS), Mathematics/Mathematical Finance (BS/MS), Political Science/Public Administration (BA/MPA), and Latin American Studies (the Fellows in Latin American Studies/FILAS BA/MA). Among the College's other programs of distinction are the Directed Independent Language Study (DILS) program, which provides students with the opportunity to attain conversational competence in any language not currently offered through traditional language instruction, the Howard Hughes Medical Institute (HHMI) program, which provides research opportunities for underrepresented minority students in Biology and Chemistry, and tailored academic mentoring for students in pre-health and pre-law tracks.

The College also provides numerous community outreach activities, including student musical theatre productions at the Jerry Herman Ring Theatre and Alvin Sherman Family Stage; student, faculty, and visiting artist exhibitions in the Wynwood Gallery in the design district of downtown Miami; lectures and faculty-curated exhibitions at the Lowe Art Museum; lectures and other educational programs sponsored by the Center for the Humanities and the Miami Institute for Advanced Study of the Americas; volunteer activities in the public schools, hospitals and community clinics for developmentally disabled children; technology workshops for Miami-Dade public school teachers sponsored by the Department of Modern Languages and Literatures Laboratory; summer arts camps for children ages 5-12 through the Department of Theatre Arts and the Lowe Art Museum; a series of programs, hosted by several departments and funded by various federal agencies and private foundations, to enhance the diversity of students pursuing scientific careers through research opportunities for pre-college and undergraduate students; and career development opportunities for high-school and community-college faculty.

Miami Herbert Business School: Miami Herbert Business School, founded in 1929, is a leader in preparing individuals and organizations to excel in the complex, dynamic and interconnected world of global business. Dedicated to developing innovative ideas and principled leaders that transform global business and society, the School is building bridges across borders, tackling fundamental business and social challenges, and fostering entrepreneurship across the region. The School enrolls over 2900 undergraduate and over 1,100 graduate students and has around 45,000 alumni living worldwide.

Business students have numerous opportunities to customize their learning experience. Undergraduates can choose from 17 majors and 18 minors and gain hands-on experience in a variety of curricular and co-curricular activities ranging from the Student Managed Investment Fund to the Milo-Goldstein Marketing Trip. At the graduate level, the School offers a one-year Accelerated MBA program and an Accelerated MBA in Real Estate program, a two-year, full-time, STEM-designated MBA program, a fully online MBA program, an Executive MBA in Health Management & Policy program, the Global OneMBA, and the Global Executive MBA program, along with specialized ten-month master's programs in accountancy (STEM-designated), business analytics (STEM-designated), finance (STEM-designated), health administration, international business, leadership, sustainable business (STEM-designated), and taxation (STEM-designated), with finance also having a fully online option.

The School is home to the Center for Health Sector Management and Policy and The Johnson A. Edosomwan Leadership Institute. Members of the business faculty are distinguished thought leaders whose innovative research drives business change and shapes public policy. Each year, the School hosts several talks by prominent business leaders through its Distinguished Leaders Lecture Series and its annual impact conferences in the areas of health care, real estate and finance bring thousands of professionals to the campus. The School is recognized as the No. 7 most diverse business school by Bloomberg Businessweek's first-ever Diversity Index ranking reflecting the School's global appeal and multicultural positioning.

School of Communication: Founded in 1985, the School of Communication (SoC) prepares students to navigate the ever-changing communication landscape with the creativity, skill, and social responsibility needed for success in a technological and global society. The School enrolls approximately over 1000 undergraduate and more than 150 graduate students, with a full-time faculty of 78 scholars and professionals. The School houses five departments; Cinematic Arts (CCA); Communication Studies (COS); Interactive Media (CIM); Journalism & Media Management (JMM); and Strategic Communication (STC). The nine major undergraduate programs of study in the School are advertising; broadcast journalism; communication studies; electronic media; interactive media; journalism; media management; motion pictures; and public relations. Graduate programs at the M.A. level consist of journalism, public relations, and communication studies. M.F.A. degrees are offered in interactive media and in motion pictures, and an M.S. is available in media management. In addition, the School offers a doctoral program in communication focusing on research and action for positive social change. Recently, the School added its first graduate certificate program, certificate in media management, to its robust offerings.

SoC faculty are world-renowned scholars and professionals, winning impressive recognition such as Pulitzer Prize, Emmy, and Academy awards. They are consistently awarded fellowships and grants for their work, and take part in various professional organizations. The School's dean, Karin Gwinn Wilkins, is an accomplished communication scholar, recognized as a Fellow by the International Communication Association.

The Center for Communication, Culture, and Change (4C) focuses on promoting positive social change through communication research and creative production. The Center serves as a significant venue for scholarship and practice, benefitting students and faculty through collaborative and compelling work that addresses our contemporary challenges.

Students of the School engage with a diverse faculty of communication scholars, artists, and professionals in a variety of hands-on learning experiences embracing research, production, and critical analysis. Facilities where students can foster their skills include two high-definition television studios with control rooms, an interactive media center, UX lab, post-production facilities, XR studio, and a cinema with 4K and 35mm projection. SoC students have access to a moving images archive with more than 3,000 classic films and television programs and industry-leading software including Avid Media Composer, ProTools Ultimate, AutoDesk Maya, Adobe Creative Cloud, IBM SPSS 27, and AP ENPS. Available equipment for student use includes computers, Alienware VR computers, 360-degree video cameras, and RED Dragon cameras.

Students have multiple opportunities to participate in key media organizations at the University, such as UMTV, the University's FM radio station, *The Miami Hurricane*, *Ibis* yearbook, and *Distraction* magazine. The School supports student chapters of the American Advertising Federation, the Public Relations Society of America, the Society of Professional Journalists, the National Broadcasting Society, the University Film and Video Association, and other professional organizations. In addition, the School sponsors a nationally competitive intercollegiate debate team, which annually produces several members of the All-American Debate Team.

Internships in professional settings are available to SoC students at the sophomore, junior, and senior levels. Professionals at daily and weekly newspapers, magazines, news bureaus, cable systems, radio and television stations and networks, production houses, motion picture studios, and other communication arenas cooperate in faculty-supervised internships. The Stein Family Office of Career Services and Internships assists students seeking internships and offers career planning services. Summer and semester-length study abroad opportunities are available. Students can also gain professional experience through the Semester in Los Angeles Program. Juniors and seniors can apply to participate in a 14-week immersive internship while taking industry-related courses in L.A. under SoC faculty supervision.

School of Education and Human Development: The mission of the School of Education and Human Development (SEHD) is to produce knowledge and to prepare the next generation of leaders, researchers, and agents of change and well-being in education and the community. SEHD seeks to be a center of excellence in the study, promotion, and integration of educational, psychological, and physical well-being in multicultural communities.

Founded in 1929, the SEHD houses the departments of Educational and Psychological Studies, Kinesiology and Sport Sciences, and Teaching and Learning.

The Department of Educational and Psychological Studies (EPS) offers an undergraduate degree in Community and Applied Psychological Studies. The Department offers graduate degrees in five program areas: Community and Social Change; Community Well-Being; Counseling Psychology; Higher Education; and Research, Measurement, and Evaluation. The Community and Social Change program offers a M.S.Ed and the Community Well-Being program offers a Ph.D. degree. The Higher Education Administration program offers a M.S.Ed. with three tracks – Enrollment Management, Student Life and Development, and Institutional Research and Policy Analysis, and an executive doctoral degree in Higher Education Leadership (Ed.D.). The Research, Measurement, and Evaluation program offers a Ph.D. degree. The EPS Department's Ph.D. program in Counseling Psychology is accredited by the American

Psychological Association (APA). Both counseling M.S.Ed. specialized in Mental Health Counseling or Marriage and Family Therapy; and Ph.D. programs in Counseling provide the academic foundation for licensure. The EPS Department also offers certificate programs in Enrollment Management, and Student Life and Development.

The Department of Kinesiology and Sport Sciences (KIN) offers undergraduate majors in exercise physiology, and sport administration. Undergraduate minors are offered in exercise physiology, sports medicine, and sport administration. Master's degree programs are offered in athletic training, sport administration and applied physiology. The sport administration degree is offered on campus as well as online. The Ph.D. program in exercise physiology provides emphasis in cardiovascular physiology, muscle physiology, biomechanics, and sports medicine. There are also two laboratories, the Laboratory of Clinical and Applied Physiology and the Max Orovitz Laboratories equipped with high-tech, cutting edge equipment and more than 12,500 square feet of laboratory space.

The Department of Teaching and Learning (TAL) offers an undergraduate major with Florida Department of Education (FDOE) dual certification in Elementary Education and Special Education, along with endorsements in ESOL and Reading. The Department also offers a minor in Education that fulfills the state's Professional Training Option (PTO) for secondary teachers and leads to FDOE temporary certification as well as a general minor in Education. The M.S.Ed. includes two programs: Education and Social Change and Special Education, which includes a track leading to FDOE certification. The Department's Ph.D. program offers specializations in Language and Literacy Learning in Multilingual Settings; Science, Technology, Engineering and Mathematics (STEM) Education; and Special Education. An online program offers the degrees of M.S.Ed. and Ed.D in Applied Learning Sciences.

Structured professional internships, professional development schools, on-campus labs, and integrated field studies provide students in all majors with outstanding experiential learning opportunities.

College of Engineering: Founded in 1947, the College of Engineering comprises six departments that offer degrees in aerospace, architectural, biomedical, chemical, civil, computer, electrical, environmental, industrial, materials and mechanical engineering. The College offers undergraduates a five-year BS/MS degree option, as well as master's and doctoral degrees with specializations in several fields including biomechanics and neuroscience, construction management, cybersecurity, management of technology and ocean engineering. Engineering students participate in interdisciplinary educational programs and research projects with other schools and colleges at the University. With approximately 900 undergraduate students and more than 230 graduate students, the College boasts an impressively diverse student body consisting of students from 45 different countries. At the undergraduate level, 34% of the student population is Hispanic and 9% is black. Females represent 37% of the students (15% higher than the national average, according to the American Society for Engineering Education). The College's faculty are at the forefront of research on subjects such as healthcare, augmented reality, data analytics, cybersecurity, and resiliency. The faculty of more than 80 includes several National Science Foundation early-career awardees and three members of the prestigious U.S. National Academy of Engineering.

The College of Engineering is committed to transforming lives through teaching, research, innovation, and service and has implemented six advanced research areas and cross cutting initiatives referred to as strategic thrusts:

Advanced Materials: Materials are an enabler for many societal advances. The emphasis of this cluster is multi-scalar: from the synthesis of nanomaterials to the building of devices and large-scale structures. Concepts of knowledge-based synthesis, design, and additive manufacturing are developed and utilized.

Data Sciences and Engineering: The field of data sciences and engineering encompasses areas ranging from data generation, collection, measurement, and analytics. Areas include artificial intelligence, machine learning, informatics, and others. The group focuses on practical applications of data collection and analysis in areas ranging from medicine, materials, climate change, and the environment. Collaboration with the Institute for Data Science and Computing adds expertise in this field.

Energy and Environment: Energy is an important global challenge, and concerns about human's environmental footprint, such as carbon dioxide, and concerns about security and rapid global development, have recently brought this field to the forefront. Environmental issues related to aerosols, air quality, and water quality are under the purview of this cluster.

Health Care Engineering: Health care looms large as one of the largest and fastest-growing sectors of the global economy. All engineering disciplines have critical roles to play in creating, developing, and implementing cutting-edge devices, systems, and procedures to support medical advances. Through technology and in collaboration with Uhealth, the Leonard M. Miller School of Medicine, and the School of Nursing; the College will tackle significant societal challenges related to the aging population, management of common diseases and pandemics, and other innovations in medicine.

Space Sciences and Engineering: As humanity begins to explore and inhabit outer space, there is a need for the most advanced technologies to sustain life — and the opportunity to gain knowledge from space-based infrastructure that can improve our conditions on earth. This research cluster emphasizes propulsion, aerodynamics and astrodynamics, advanced environmental technologies for space applications, advanced satellite imaging, and materials and resource production in space.

Sustainability and Resilience: A large proportion of the global population lives in urban areas — up to 80% in North and South America — and massive amounts of resources are consumed developing, operating, and sustaining urban infrastructure. Add the unprecedented threats posed by climate change and the increasing prevalence of destructive natural disasters, and the need for lasting, large-scale solutions is starkly evident. The College, through collaboration with other academic units, will reinforce the University's position in the vanguard of research and discovery that can lead to more sustainable and resilient urban systems.

Recognized for the quality and diversity of its faculty, students, and curricula, the College reshapes engineering education using innovation, research experience, industrial internship, and study abroad.

Engineering students and faculty have access to a dedicated entrepreneur-in-residence who explores with them the aspects of product design, IP, licensing and starting a company.

Engineering students also can take courses internationally through the Global E3 study abroad program, gaining cross-cultural skills to excel in the multinational/multicultural engineering profession.

Engineering students have opportunities to secure professional internships while they are in school, to enhance their professional and leadership skills through capstones and senior design projects, and to connect with leading technology firms across the country.

The College of Engineering promotes pro-active and hands-on learning environments. Students and faculty have access to state-of-the-art facilities such as the Johnson & Johnson 3D Printing Center of Excellence Collaborative Laboratory (J&J Collab). In the J&J Collab, students work alongside Johnson & Johnson engineers and gain invaluable experience in advanced additive manufacturing for personalized healthcare.

The *Phillip and Patricia Frost School of Music* was founded in 1926 and is one of the largest and most comprehensive of its kind in a private institution. The Frost School has nearly 90 full-time and over 30 part-time faculty, a student body of over 520 undergraduate students, and more than 360 graduate students. The Frost School awards the Bachelor of Music degree with majors in 12 areas, the Bachelor of Science in Music Engineering Technology, and the Bachelor of Arts in music. The Frost School offers several undergraduate minors, including The Bruce Hornsby Creative American Music minor, and undergraduate performer's certificates in instrumental, vocal, keyboard, and jazz performance. The Frost School is a national curriculum leader with its Frost Method®, encompassing the Experiential Music Curriculum for elite skills acquisition, and the industry-leading CREATE Through Lines, embedding professional and life skills across a spectrum of capability areas.

The Artist Diploma is offered at the graduate level in performance and conducting. The Master of Music is offered with majors in 18 areas. The Master of Arts is offered in Live Entertainment Management, as well as Music Industry; both of which can also be pursued as joint degrees with the School of Law. The Master of Arts in Teaching is offered in Music Education, and the Master of Science degree is offered in Music Engineering Technology. The Doctor of Philosophy degree is offered in music education, and the Doctor of Musical Arts degree is offered in performance, conducting, and composition. The Henry Mancini Institute is housed within the Frost School, providing distinct artistic experiences across a broad spectrum of musical genres including film, world, jazz and contemporary musical styles.

The Frost School's facilities include:

- Messenger Music Executive Building is a historically designated building which originally served as the music library until 2004. It has since been turned into offices for the Frost School of Music administration.
- Maurice Gusman Concert Hall was built in 1975 and has 600 seats, making it the largest concert hall on campus.
- L. Austin Weeks Center for Recording and Performance, which contains the Victor E. Clarke Recital Hall and a state-of-the-art recording studio (one of five professional quality studios in the School);
- Austin and Marta Weeks Music Library and Technology Center, which contains six music technology labs in the 28,000 square foot facility.
- Patricia Louise Frost Music Studios, a 41,089-square-foot twin-building complex that features 75 chamber music and teaching studios.
- Volpe Classroom Building was fully renovated in 2019 and houses core music classes, such as music theory, ear training, and musicology.
- Foster Practice Building has a total of 74 rooms, including two large rehearsal/classrooms, and 2 small ensemble rehearsal rooms.
- Rehearsal Center, which features 3 rehearsal halls for large ensembles, such as the Frost Symphony Orchestra.
- The Knight Recital Hall and Hormel Innovation Stage is currently being constructed and will come online in 2023, providing a cutting-edge environment for recitals, wall stream and livestream broadcasts, and a music scoring stage/maker space.

Many of the Frost School's faculty have gained international recognition in their respective fields. Several of the School's premier performing ensembles have won national awards and engage in touring within and outside the United States. The Frost School has exchange programs with the Sibelius Academy in Helsinki, Finland; Bucks New University in Buckinghamshire, England; the Western Australian Academy of Performing Arts at Edith Cowan University in Perth, Australia; the Royal Academy of Music in London, England, and the Johannes Gutenberg-Universität in Mainz, Germany. The Patti and Allan Herbert Frost School of Music Program at Salzburg, a five-week program for singers and pianists, takes place every summer in Salzburg, Austria. The Frost School hosts a summer jazz institute in Aspen, CO through a collaboration with Jazz Aspen Snowmass (JAS). Additionally, the Frost School has entered into a new multi-year partnership with Festival Napa Valley to create Frost School at Festival Napa Valley, a summer education and performance program. During the academic year, the Frost School

presents more than 300 forums, student and faculty recitals, concerts, lectures, master classes, and guest artist performances.

The Frost School serves as a major educational and cultural resource for South Florida, and provides numerous outreach programs to the community, including:

- Frost Music Live!
- The Ress Family Hospital Performance Project
- Honor Band and Honor Choir festivals
- Frost Community School
- Piano and String Academy
- Little Canes
- Summer music camps for children and students from newborn to 19 years old.
- Donna E. Shalala MusicReach Program, which serves hundreds of underserved youth weekly in outreach programs located throughout the county, as well as through free performances and events.
- Student chapters of several professional music organizations.

Graduate School: The University first approved courses for graduate work in 1941 and the first doctoral degrees were approved in 1959. The University of Miami offers a comprehensive range of student-centered graduate programs with a vibrant multicultural student body. The mission of the Graduate School consists of four pillars:

Promoting scholarship and research
Supporting individuals, departments, and programs in the pursuit of excellence
Fostering innovative, multidisciplinary, and interdisciplinary activities
Maintaining high ethical and academic standards in graduate studies

Currently, graduate student enrollment (excluding M.D. and law students) stands at over 4,000. The University and its more than 200 master's and doctoral programs in 11 schools and colleges are fully accredited by the Southern Association of Colleges and Schools, as well as by a number of other independent accrediting agencies. The faculty of the Graduate School currently consists of nearly 1,300 members within the University.

The Graduate School is a student-services driven unit that promotes excellence in graduate education and advocates for students. The Graduate School sets all policies for graduate education and oversees the quality of graduate programs. Its operation is conducted by the Graduate Council and its standing Graduate Faculty Committees. The Graduate School is committed to providing graduate students with a vibrant learning community that fosters the development of core competencies and cross-cutting skills.

The Graduate School houses two interdisciplinary master's programs, a Master of Arts degree and a Master of Professional Science degree in Environment, Culture, and Media, offered through the Leonard and Jayne Abess Center for Ecosystem Science and Policy. The Abess Center is an interdisciplinary research center dedicated to educating the next generation of environmental scientists, policy makers, managers, and planners with a grounding in the fundamentals of the natural sciences, social science, and public policy.

Law School: Founded in 1926, the University of Miami School of Law is one of the nation's leading institutions of legal education in the United States with nearly 23,000 living alumni practicing in all areas of the law, representing all 50 states, the District of Columbia, several territories, and 92 countries. The School presently enrolls 1,388 candidates for either JD, LL.M. or dual degrees. The JD program enrolls approximately 1,400 students. The 2021 JD entering class hails from 33 states, Puerto Rico, District of Columbia, and 10 countries, and represents 133 undergraduate institutions. Of the entering JD students, 57 percent are women, 43% identify as members of a minority group, 61% speak one or more foreign languages, 56% have been out of undergraduate school at least one year, and 52% attended an undergraduate institution outside of Florida.

The School offers graduate programs in International Law (with specializations in, General International Law and U.S. and Transnational Law for Foreign Lawyers); International Arbitration; Maritime Law; Entertainment, Arts and Sports Law; Estate Planning; Taxation; Taxation of Cross Border Investments; and Real Property Development, with the latter two offering courses online as well as on-campus. Combined, the graduate programs enroll over 130 students; over 55% are foreign lawyers from at least 36 nations. The School also offers 7 joint JD/LLM degree programs: a JD/LLM in Tax; International Law; Maritime Law; Estate Planning; International Arbitration; Real Property Development; and Entertainment, Arts and Sports Law; and a JD/MBA/LLM in Tax, Real Property Development or Estate Planning. Additionally, the School offers 15 collaborative joint degrees with UM academic partners: a JD/MA in Live Entertainment Management; a JD/MA in Music Industry; a JD/MBA; a JD/M.Acc.; a JD/MPS in Marine Ecosystems and Society; a JD/PhD in Environmental Science and Policy; a JD/MHA in Health Administration; a JD/MPH; a JD/MD; a JD/MA in Latin American Studies; a JD/MPA; a JD/MA in Communication; a JD/MS in Media Management; a JD/M.S.Ed in Law, Community and Social Change; and a 3+3 Joint Degree Program in Law for Undergraduates.

The School provides a rigorous foundation in the intellectual underpinnings of law, as well as extensive lawyering and skills training in both traditional and innovative settings. The School's renowned faculty includes nearly 100 full-time professors and 250 non-full-time faculty, including distinguished lawyers and judges who serve as adjunct professors. In addition to its extensive curriculum with over 300 courses, seminars, and concentrations, the School offers foreign exchange programs in Argentina, Belgium, Brazil, China, Colombia, France, Germany, India, Ireland, Israel, Spain, Switzerland, and Vietnam. Through a diverse array of experiential education options, students can gain practical experience and develop core competencies used by lawyers. The Law School's award-winning clinics and practicums, totaling 17, cover a broad range of practice areas and offer exceptional training grounds that give students hands-on lawyering experience while also helping under-represented individuals. The Law School's externship programs offer students an opportunity to earn academic credit and gain practical legal experience by working with local, national, and international corporations, government agencies, public interest organizations and the judiciary. Through the D.C. Semester in Practice and Florida Supreme Court externship programs students have the unique experience of working full-time in the Florida and United States capitals. Miami Law's rigorous simulation programs allow students to learn lawyering skills for the courtroom and the boardroom. The Litigation Skills program allows students to learn invaluable litigations skills from prominent trial lawyers and judges, while the Transactional Skills Program enables students to learn from experienced transactional lawyers how to review, draft, and negotiate contracts. Other unique hands-on learning opportunities for academic credit are provided by specialty centers and programs such as the Center of Ethics and Public Service and Law Without Walls (LWOW).

The Law Library is one of the leading legal research libraries, with over 650,000 volumes and equivalents. Taxation and estate planning, law of the sea, and international arbitration are among the special strengths represented in the collection. Foreign law collections focus on regions of Latin America and the Caribbean. The Law Library's talented staff provides a variety of services designed to meet the research and teaching needs of the faculty and students at the Law School.

The School has been ranked as one of the "20 Most Innovative Law Schools" by PreLaw Magazine. PreLaw Magazine gives 'A' Rankings to MiamiLaw for Business Law (Fall 2020), Criminal Law (Fall 2020), Alternative Dispute Resolution (Spring 2020 and 2021), Intellectual Property (Spring 2020), Technology Law (Spring 2020), International Law and Trial Advocacy (Winter 2021). PreLaw Magazine also ranks MiamiLaw in the Top 7 Law School for Human Rights Law (Fall 2020), Top 10 in Family Law (Fall 2020), Top 10 School for Health Law in 2020 by the National Jurist.

The School has been listed in the Top 10 in the 2021 Princeton Review in its specialty listings in three categories: best southeastern law schools, best for most diverse faculty, and best in greatest resources for minority students; and among the top ten schools in 2021 on LL.M. Guide's Top LLM Programs By Specialty for the Entertainment, Arts, and Sports Law LL.M., the Robert Traurig-Greenberg Traurig LL.M. in Real Property Development, and the White and Case International Arbitration LL.M. The LL.M. Guide is the premier website with information on worldwide LL.M. programs and includes a directory of more than 700 law schools. The School is also among the top 50 U.S. law schools selected in the 2021 The QS World University Subject Rankings for law and legal studies.

Our Charles C. Papy, Jr. Moot Court Board was ranked 21st in the nation for the 2020-2021 academic year by Blakely Advocacy Institute at the University of Houston Law Center; and alumni, adjunct faculty and program cohorts stand out in Billboard Magazine's list of the nation's best music lawyers.

Law Alumni are featured in the Top 20 Law Schools with the Most Attorneys Recognized in the Super Lawyers magazine, with 652 alumni selected as Super Lawyers, and MiamiLaw as the #1 school in South Florida and #2 in all of Florida.

The School is accredited by the American Bar Association, is a member of the Association of American Law Schools and has a chapter of the national law student honorary society, the Order of the Coif.

Medical School: The University of Miami Leonard M. Miller School of Medicine is an academic medical center that transforms lives through teaching, research, and service. We achieve transformation through innovative education programs that train the next generation of medical leaders, groundbreaking biomedical research that has lifesaving global impact, and world-class compassionate clinical care that promotes better health throughout our community.

Two overarching practices link these areas of excellence to make the school a national leader. 1) Team Science: Because wellness and disease cut across the boundaries of academic disciplines and medical expertise, a modern academic medical center must approach all its activities from a perspective of cross-disciplinary collaboration. 2) Precision Medicine: The school's researchers and physician-scientists look at the underlying biology of disease, focusing on highly targeted treatments for each patient.

Teaching: The city of Miami has a geographic location (it is closer to most of Latin America than it is to most of the United States) and demographic diversity (more than 50 percent of people in the community we serve are from outside of the United States) that make it a uniquely rich place to study medicine. Approximately 800 medical students are joined by more than 1,000 residents and fellows, around 700 graduate students and around 200 postdoctoral fellows, and we have one of the largest graduate medical education systems in the country. They are among the brightest in the world, and they come to the Miller School for a breadth of experiences that is matched only by the quality of the training.

Fully accredited by the Liaison Committee on Medical Education of the Association of American Medical Colleges, the Miller School of Medicine is committed to graduating first-rate physicians and is a national leader in establishing innovative curriculum and admissions policies. The school's range of academic offerings includes an M.D. program, a combined seven-year and eight-year M.D./Ph.D. program, a four-year and five-year M.D./M.B.A. program, four-year and five-year M.D./M.P.H. programs, a four-year M.D./M.S. in Genomic Medicine program, a six-year M.D./J.D. program, a four-year M.D./M.A. in International Administration program, a four-year M.A. in Medical Humanities and Bioethics program, a four-year M.D./Certificate in Security Management program, multiple scholarly pathways of emphasis, graduate degrees in 10 areas, postdoctoral programs, and continuing medical education courses.

The outstanding students and medical professionals who are attracted to the Miller School's programs bring with them a strong interest in community service. Fully one-quarter of each class now graduates with the dual M.D./M.P.H. (Master of Public Health) degree. The Regional Medical Campus in Broward and Palm Beach counties is the clinical teaching campus for medical students enrolled in the M.D./M.P.H. curriculum, four residency programs and several fellowship programs. Medical student participation in the Mitchell Wolfson Sr. Department of Community Service (DOCS) Program is also strong. The students and volunteer physicians coordinate numerous events in medically underserved communities.

Research: At the Miller School 2,151 research proposals were submitted in Fiscal Year 2021, and awards totaling \$178 million were received from the NIH in Fiscal Year 2021. The Miller School of Medicine was ranked No. 40 among the top medical schools nationally in the 2020 Blue Ridge Institute for Medical Research.

Sylvester Comprehensive Cancer Center is the only cancer center in South Florida designated by the National Cancer Institute. NCI designation recognizes that Sylvester has met the most rigorous standards for cancer research, beginning in our laboratories, extending to patient care, and meeting specific needs in our community. Sylvester a Florida Department of Health designated Cancer Center of Excellence and South Florida's leader in patient-focused cancer research and care, offering the only Phase I clinical trials program – the first step in evaluating how patients respond to the latest investigational treatments. Equipped with a highly qualified team of more than 300 cancer-focused physicians and researchers working together, Sylvester discovers, develops, and delivers more precision cancer care.

The school has a prestigious Clinical and Translational Science Institute, awarded by the NIH to promote clinical and translational research, and to transform University research infrastructure to advance excellence in culturalized clinical and translational research. It also has the only designated Center for AIDS Research in Florida. Other standout research centers include the John P. Hussman Institute for Human Genomics, the Interdisciplinary Stem Cell Institute, the Dr. John T. Macdonald Foundation Biomedical Nanotechnology Institute, the Miami Transplant Institute, The Miami Project to Cure Paralysis, the Diabetes Research Institute, and the Mailman Center for Child Development. The Miller School also leads the SouthEast Enrollment Center (SEEC) for the NIH's All of Us research program, a historic effort to collect and study data from one million or more people living in the United States. Also located on the medical campus is the Louis Calder Memorial Library, the largest medical resource library in South Florida.

Service: UHealth – the University of Miami Health System provides South Florida with world-class health care that focuses on prevention, detection, diagnosis and treatment of routine, chronic, complex, and acute diseases, and conditions. Nearly 1,400 physicians represent more than 100 specialties and subspecialties, with patient care outcomes that are among the best in the nation.

The integration of research and clinical care through UHealth means that knowledge gained is applied to advanced preventions and treatments. UHealth patients are among the first in the world to benefit from the latest medical discoveries that are fast-tracked from the laboratory to the bedside at several hospitals in Miami's health district, which includes the Miller School campus.

The health system is composed of Sylvester Comprehensive Cancer Center, Bascom Palmer Eye Institute, and UHealth Tower, operating within the University of Miami Hospital and Clinics (UMHC). Bascom Palmer has been recognized as the nation's No. 1 eye hospital for 20 years by U.S. News & World Report in its annual "Best Hospitals" issue, the neurology/neurosurgery program rose to No. 35 in the nation, and the otolaryngology (ENT) program is ranked No. 44. Bascom Palmer has five locations in Miami, Palm Beach Gardens, Naples, Plantation and Coral Gables.

Additional hospitals affiliated with UHealth are Jackson Memorial Hospital, Holtz Children's Hospital, and the Bruce W. Carter VA Medical Center. The Regional Medical Campus is affiliated with 10 partner hospitals throughout Broward and Palm Beach counties as well as the Palm Beach County Department of Health and numerous community practices. About three dozen UHealth outpatient clinics are located in communities across Miami-Dade, Broward, Palm Beach, and Collier counties.

The Lennar Foundation Medical Center is a five-story, 206,000-square-foot multi-specialty ambulatory medical center on the Coral Gables campus that has been created as a health care destination that encompasses preventive medicine, treatment of disease and management of disease. All services performed have a satisfaction rating of more than 75% with most in the 90 – 95% range. Due to the success of Lennar's performance, it has been recognized at a national benchmark by Press Ganey and has been awarded the Pinnacle and Guardian of Excellence Awards each year since it opened.

Clinical services include specialty cancer care by the renowned Sylvester Comprehensive Cancer Center, Bascom Palmer Eye Institute ophthalmology care, primary care, student health, imaging (MRI, CT, PET/CT, nuclear medicine, non-invasive cardiology, and ultrasound), radiation therapy, the University of Miami Sports Medicine Institute, physical therapy, and multispecialty clinics representing such specialties as gastroenterology, cardiology, urology, and neurology. The Center features six ambulatory surgery rooms, three endoscopy procedure

suites, the Braman Family Breast Cancer Institute at Sylvester Comprehensive Cancer Center (mammography, ultrasound), the infusion center, and a comprehensive diabetes center.

The Center also has conference room spaces for patient education and community engagement events, including the reflection terrace for community as well as private event space.

School of Nursing and Health Studies: Established in 1948 as the first collegiate nursing program in South Florida, the University of Miami School of Nursing and Health Studies (SONHS) educates students at the baccalaureate, master's, and doctoral levels, preparing them to provide safe, evidence-based, compassionate, and culturally competent care to local, national, and international communities. The school's cutting-edge curricular offerings are continuously updated to meet the evolving demands of the national and global health care arenas. With over 10,000 graduates in just about every corner of the world, the school provides diverse educational opportunities for the next generation of health professionals. Our graduates comprise a global network of practitioners, researchers and educators working on the frontlines of health care facilities worldwide. The achievements of SONHS alumni increase the visibility of our programs in hospitals, communities, laboratories, classrooms, boardrooms and at the intersection of research, practice and policy.

In addition to accreditation through the Southern Association of Schools and Colleges, SONHS academic programs are accredited by the Council on Education for Public Health, Council on Accreditation of Nurse Anesthesia Educational Programs, and the Commission on Collegiate Nursing Education. The School's programs are known for academic excellence, clinical practice experience innovations, and a commitment to global health.

The undergraduate curriculum includes degree tracks for a Bachelor of Science in Nursing (BSN), a Bachelor of Science in Health Science (BSHS), a Bachelor of Science in Public Health (BSPH), and a minor in Public Health. In addition to the Traditional BSN, we offer an Accelerated BSN program for individuals who hold undergraduate degrees in fields other than nursing and a hybrid format RN-to-BSN program for registered nurses. Our undergraduate nursing students consistently earn some of the highest first-time pass rates on the national nursing licensing exam. In 2020, BSN graduates from SONHS achieved a first-time pass rate of 95% for the National Council Licensure Examination (NCLEX-RN), well above the state average of 86.5% and national average of 90.3%. In addition, *U.S. News & World Report* ranked the SONHS BSN program at SONHS in the top 5% (#31) of BSN programs nationwide as part of its 2022 Best Colleges rankings.

The SONHS curriculum also includes master's- and doctoral-level graduate programs. In the *U.S. News & World Report's* Best Graduate Schools 2022, our Master of Science in Nursing (MSN) and Doctor of Nursing Practice (DNP) degree programs ranked No. 34 (top 6%) and No. 38 (top 11%), respectively, based on program excellence and quality of faculty, research, and students out of 597 accredited nursing schools surveyed with master's or doctoral programs.

The School's MSN nurse practitioner program was the first in the region and has been expanded in keeping with the increased demand for nurse practitioners created by the transformation of the U.S. health care system and shifting patient demographics. The MSN nurse practitioner (NP) specialty tracks are adult-gerontology acute care NP, adult-gerontology primary care NP, and family nurse practitioner. Also offered are post-master's certificates for adult-gerontology acute care NP, adult-gerontology primary care NP, family nurse practitioner, and psychiatric mental health nursing. The fully online Master of Science in Health Informatics degree is designed to address the enhanced need for qualified informatics professionals in the transformed national health care system. A Post-Bachelor's Certificate is also available in the health informatics track. The 4+1 degree program, a partnership with UM's Miller School of Medicine, enables qualified students to earn both a bachelor's and master's degree in public health in just five years.

At the doctoral level, the School offers the Doctor of Philosophy (PhD) in Nursing Science and Doctor of Nursing Practice (DNP) programs. The DNP is offered in the BSN-to-DNP and the post-master's tracks. There are four different BSN-DNP specializations: nurse anesthesia (CRNA) (first in Florida), family nurse practitioner (NP), adult-gerontology acute care NP, and adult-gerontology primary care NP. The post-master's track DNP degree is

offered in an executive-style hybrid format, which allows students to remain active members of the health care workforce by blending online components, practice immersion experiences, and one weekend per month of on-site, face-to-face classroom interaction. Alumni are recognized as cutting-edge practitioners, researchers, and educators.

At the School of Nursing and Health Studies, dedication to academic excellence matches a commitment to the service-based nature of the health professions. The School and on-site Simulation Hospital Advancing Research and Education (S.H.A.R.E.TM) serve as a hub for students, health care professionals, first responders, and corporate partners to design, test, and master the essential skills and technologies that are transforming health care education, research, and practice.

Our active student organizations include the National Student Nurses' Association, the Multicultural Nursing Student Association, the Health Studies Students Association, and the first Florida chapter of the American Assembly for Men in Nursing. Our school is also home to Beta Tau, the South Florida chapter of Sigma Theta Tau International, the international honor society of nursing. Our faculty members and students lead initiatives to improve the health of marginalized populations facing health disparities and address racial and other types of discrimination. At the campus level, students implement a range of public health promotion and disease prevention initiatives.

The School, which has a minority population of 66.5% continues to be recognized for attracting and nurturing promising students from diverse backgrounds. Our status as a Hispanic Serving Health Professions School makes our students eligible for special programs that advance Hispanic health education and research. SONHS is a recipient of the 2016 INSIGHT Into Diversity Health Professions Higher Education Excellence in Diversity (HEED) Award. The only national honor for higher education diversity in the U.S., HEED recognizes health professions education programs that demonstrate an outstanding commitment to diversity and inclusion.

An extensive network of over 250 clinical and community partners provides our students with opportunities for hands-on experience and mentorship at local hospitals, primary health care centers, community-based organizations, health departments, and social service agencies across South Florida and internationally. Public health students participate in field practicums designed to engage them in the study and practice of preventing disease and promoting wellness in local and global communities. These culturally and socioeconomically diverse practice settings equip students to address the health challenges of an increasingly diverse and globalized society.

Capitalizing on its location at “the gateway to the Americas,” the school promotes dialogue and mutual exchange of health care knowledge with neighbors in global regions. An expanding international exchange program offers students global health care experiences throughout Latin America, the Caribbean, and beyond. In addition, the school serves as a Pan American Health Organization/World Health Organization Collaborating Centre—one of just eight such nursing-related centers in the U.S.

Another important way SONHS serves students, faculty, partners, and the hemispheric community at large is through Mission-Driven Research. The school's research portfolio ranks 23rd among nursing schools nationwide for National Institutes of Health (NIH) funding. Faculty, students, and post-doctoral associates use the School's state-of-the-art facilities and affiliated health systems to conduct interdisciplinary, evidence-based studies that make a positive impact in five key areas: Patient Safety and Outcomes, Disaster Preparedness, Vulnerable Populations and Health Disparities, Global Health, and Family Caregiving.

SONHS offers ongoing opportunities for students at all levels to conduct health care research and scholarly projects under the guidance of world-renowned faculty scientists. These include a \$1.94 million NIH/National Institute of Nursing Research study to test the impact of the Family Automated Voice Reorientation (FAVoR) intervention on delirium in mechanically ventilated patients in intensive care; the NIH/National Institute of Minority Health and Health Disparities-funded Research Training program to prepare future health disparities scientists from diverse backgrounds; a \$3.25 million grant from the U.S. Department of Health and Human Services' Health Resources and Services Administration (HRSA) to increase diversity in the master's prepared nursing workforce; HRSA funding for the Nurse Anesthetist Traineeship project to address the needs of medically underserved regions and populations; and the \$6.8 million NIH/NIMHD-funded Center for Latino Health Research Opportunities

(CLaRO), which develops interventions for substance abuse, violence/trauma and HIV/AIDS (SAVA) syndemic conditions affecting Latino populations. Additional research projects supported by grants and community partnerships include studies on nursing workforce conditions/job satisfaction, health care simulation education for patient safety, and the impact of COVID-19.

Research support services and resources include physical facilities, such as the cutting-edge 41,000-square-foot Simulation Hospital Advancing Research and Education (S.H.A.R.E.TM), the Biobehavioral Research Laboratory, and Office of Hemispheric and Global Initiatives, as well as a comprehensive online Measures Library, Grant Writing and Application Support. S.H.A.R.E.TM puts the School of Nursing and Health Studies at the forefront as a hemispheric leader in health care education and innovation, bringing to life the school's vision of transforming lives and health care through education, research, innovation, and service across the hemisphere. Fully accredited for teaching and education by the Society for Simulation in Healthcare, S.H.A.R.E.TM is leading the way in innovative health care education through global observerships that welcome nurses from around the world, interprofessional patient safety courses, and disaster preparedness collaborations with community and international partners. In this transformative five-story facility students of all levels gain clinical competencies, critical thinking skills, and preparation for complex interdisciplinary health care environments.

Rosenstiel School of Marine & Atmospheric Science (RSMAS): As the most significant subtropical research institutions in the continental United States, the [Rosenstiel School of Marine and Atmospheric Science](#) has grown into the world's premier school of its kind since its founding in 1943. Through transformational research, dynamic interdisciplinary academics, and the unwavering support and establishment of sound environmental policy, we study Earth's great mysteries, improve the quality of human life, and educate our students, the public, and tomorrow's scientific leaders.

The Rosenstiel School's main campus is located on Virginia Key, Florida, which forms part of a specially designated marine research and education park that includes two National Oceanic and Atmospheric Administration (NOAA) laboratories and a nationally recognized maritime and science technology magnet high school of excellence. The Rosenstiel School also operates a marine experimental station on Broad Key, a hangar at the Tamiami Executive Airport for its Aircraft Center for Earth Studies (ACES), and a teaching and research station in the Galápagos.

The Rosenstiel School campus has grown to include modern research and teaching facilities, a dedicated academic library, expanded and enhanced classrooms, a spacious auditorium with HD video recording and streaming capabilities, and an internationally recognized Marine Invertebrate Museum. It also includes the 85,000 square-foot, Marine Technology and Life Sciences Seawater Complex that houses the world's largest, Alfred C. Glassell Jr. [SURge-STructure-Atmosphere-Interaction \(SUSTAIN\) wind-wave tank](#). This tank is capable of generating 3D wind-wave flow and surge produced by category 5 hurricane force winds in complex coastal topography. The Marine Life Sciences Center, located within the Seawater Complex, provides a dedicated space for the study of marine animals with foci on the critical connections between oceans and human health and the impacts of climate change on marine organisms and ecosystems. Also located in the Marine Life Sciences Center is the National Resource for Aplysia. This is the only location in the world established by the National Institutes of Health's National Center for Research Resources, where [Aplysia californica](#) are cultured and raised for research and teaching. *Aplysia* are valuable to science as animal models for the study of many aspects of human and animal nervous systems.

An on-campus dock provides the School's community access to the [R/V F.G Walton Smith](#), a 96-foot advanced research catamaran named for the Rosenstiel School's founder and a fleet of several smaller boats for local research. In 2014, the Rosenstiel School added to its fleet of specialized research vessels a one-of-a-kind [Helicopter Observation Platform \(HOP\)](#). It is equipped with technology that transformed a commercial aircraft into a flying scientific laboratory to obtain vital information on environmental processes, weather and mechanisms that affect our climate and impact human health. The HOP is the cornerstone to ACES, which inaugurates the next generation of scientific aerial observations with drones and innovative remote sensing technologies such as FluidCam, fluid lensing, MiDAR and NeMO-Net that are used to study and protect life on Earth. These technologies are used in a variety of environments, including mapping coral reefs and shallow marine ecosystems.

The Rosenstiel Campus includes a freshwater [Scientific Dive Training Facility](#). It is one of the few facilities of its kind in the nation that plays a critical role in providing the necessary scientific diving instruction to our students and scientists.

The Rosenstiel School operates the Center for Southeastern Tropical Advanced Remote Sensing (CSTARS), an [advanced satellite reception and analysis facility](#) to conduct research with remotely sensed data received from earth-orbiting satellites. The Center provides vital life-saving information on man-made and natural disasters such as earthquakes, hurricanes, typhoons, rogue waves, and oil spills.

Since 1977, the [Cooperative Institute for Marine and Atmospheric Studies](#) (CIMAS) has been based at the Rosenstiel School, bringing together the research and educational resources of ten partner universities to increase scientific understanding of Earth's oceans and atmosphere within the context of NOAA's mission. The federally supported institute provides research, education, training, and outreach aligned with its mission and promotes the involvement of students and postdoctoral scientists in NOAA-funded research. CIMAS research is focused on four themes:

- Ecosystem observations, modeling, forecasts and management,
- Tropical weather observations, analysis, and prediction,
- Ocean and climate observations, analysis, and prediction
- Protection and restoration of marine resources

The Rosenstiel School's Experimental Hatchery facility also located on Virginia Key is one of the [premier marine aquaculture research](#) facilities in the U.S. and its unique location allows for unprecedented research and development to occur using both flow-through and recirculating seawater systems on site. The hatchery also serves as a vital resource for coral rearing and research.

Our [Broad Key Experimental Station](#), located on a 63-acre island off the coast of Key Largo, FL, provides faculty and students with expanded opportunities to conduct research throughout the Florida Keys. Located just two miles away from John Pennekamp Coral Reef State Park, the marine research facility provides scientists with direct access to Florida's sub-tropical marine ecosystem. The island, only accessible by boat and helicopter, can accommodate groups of 20-25 for overnight stays and offers scientists and students a year-round unique environment for research and teaching programs.

The School's 73 faculty, 115 doctoral, 396 master, and 481 undergraduate students and over 250 research and administrative support staff comprise a robust academic community. Through excellence in research on the various components of the Earth system and connecting these results to policy, the Rosenstiel School sheds light on today's most pressing environmental issues. Scientists and students at the Rosenstiel School study a wide range of topics, many of which relate to the environment and humanity's growing impacts on the natural world. They are at the forefront of research on subjects such as weather forecasting (e.g., hurricane), global climate, natural hazards, oil spill science, aquaculture, marine genomics, fisheries, coral reefs, ocean and atmospheric circulation, sea level rise, oceans and human health, and marine conservation and policy.

The Rosenstiel School offers both undergraduate and graduate degree programs. Through coursework and research, Rosenstiel School students can earn graduate degrees in ocean sciences, atmospheric sciences, marine biology and ecology, marine geosciences, environmental science and policy, and meteorology and physical oceanography. Undergraduate students in these programs have opportunities to participate in research projects, working alongside world-class scientists in laboratories and in the field. Together with the UM School of Law, the Rosenstiel School also offers a joint program in which students earn a Juris Doctor degree from the School of Law and a Master of Professional Science in Environmental Science and Policy from the Rosenstiel School. The Rosenstiel School offers several undergraduate degree options which include a Bachelor of Arts in Marine Affairs or Geological Science as well as a Bachelor of Science in Geological Sciences, Marine Biology and Ecology, Meteorology, Oceanography, or Marine Science. The Bachelor of Science degree in Marine Science is a full double major program that requires a major in Marine Science through the Rosenstiel School and a major in one of the sciences through any other school or college at the University. In addition to the traditional bachelor's degree programs, students may also elect a five-year B.A. or B.S. / Master of Professional Science (M.P.S.) degree. New graduate programs launched in

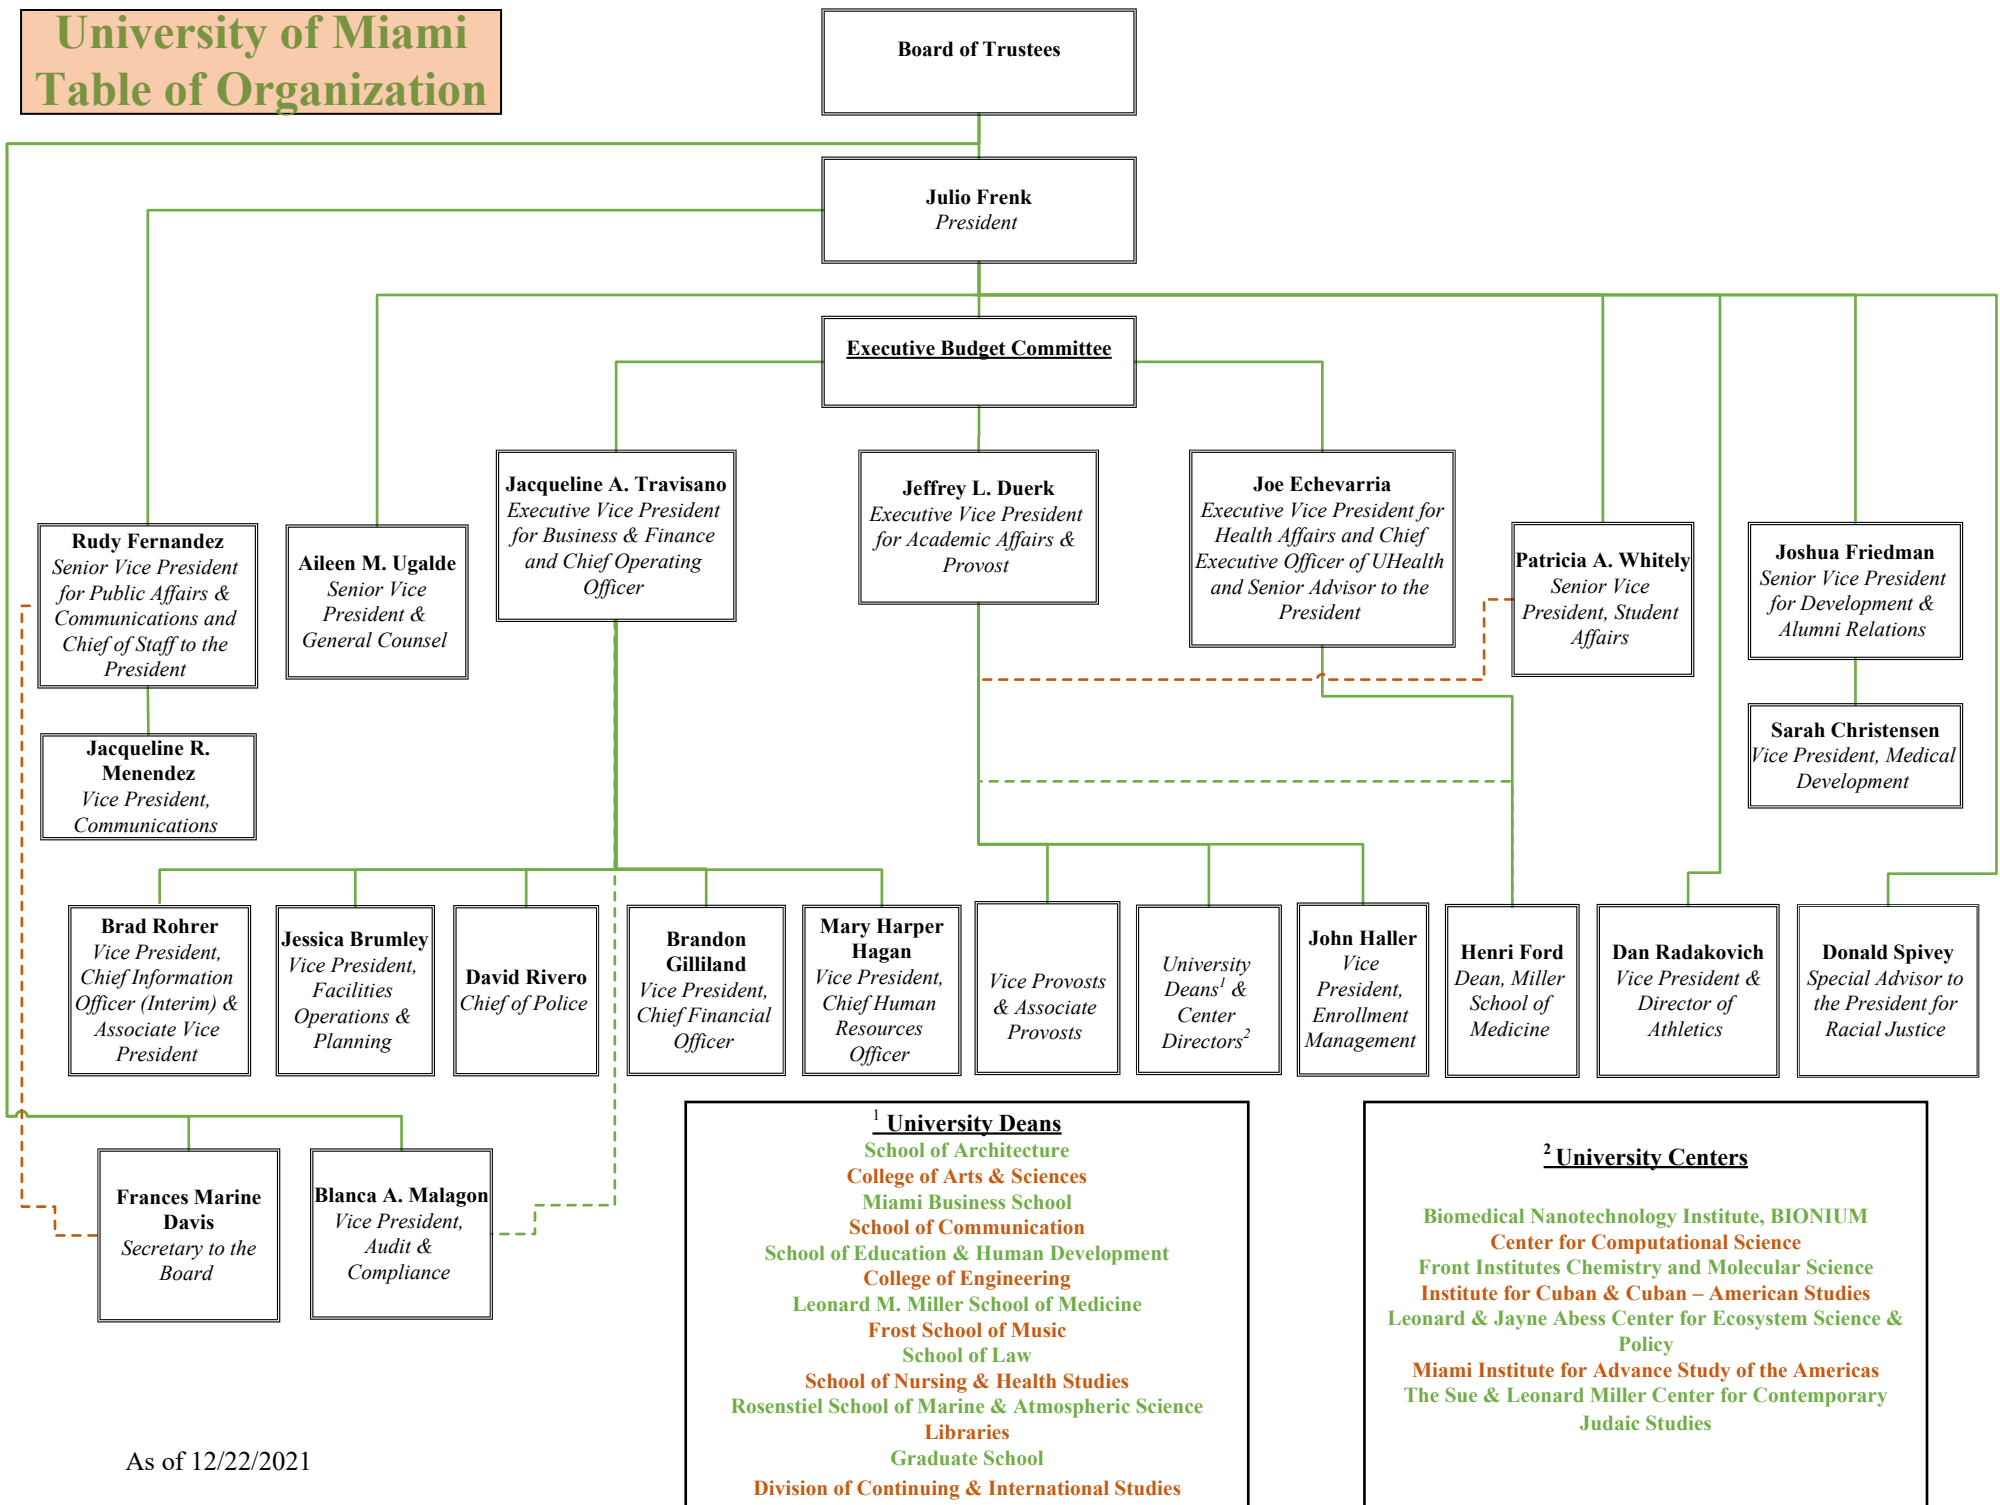

2019 include Master of Science in Climate Health in collaboration with the UM Department of Public Health Sciences, the Miller School of Medicine and the Rosenstiel School's Department of Atmospheric Sciences. In addition, a Master of Science in Sustainable Business with the UM Business School and the UM Department of Civil Architecture and Environmental Engineering.

In 2011, the Rosenstiel School launched the Master of Professional Science program for students who seek advanced training in career tracks relating to Earth's sciences. Designed for students who were undergraduate science majors, this interdisciplinary curriculum is structured to allow students to expand applied scientific knowledge, as well as their professional skills. Degrees can be earned in as little as 12 months in one of several tracks including: aquaculture; applied remote sensing; broadcast meteorology; climate and society; coastal zone management; exploration science; fisheries management and conservation; marine conservation; marine mammal science; natural hazards and catastrophes; tropical marine ecosystem management; underwater archaeology; and weather forecasting.

The School's Community [Outreach Program](#) works in tandem with faculty to connect the University to the general public and all communities in South Florida. Outreach at the Rosenstiel School aids faculty with science proposals and with synergetic partnerships with science museums and South Florida school districts. The general public is invited to join scientists via our various Citizen Scientists programs, on and under the water to help restore coral reefs, track pollutants in Biscayne Bay with our oil spill science experts, and study and help protect sharks. Through the Rosenstiel School's [Citizen Science Program](#), participants get the unique opportunity to participate in scientific inquiry with scientists working on real-time problems.

Cutting-edge research and education at the Rosenstiel School is supported through grants from government agencies and private organizations, as well as innovative partnerships and philanthropic donations. Currently, the annual research expenditure of the School is about \$65 million.

Below 4th Decile	10%	9%	8%	10%	6%	-4%
Number Included in Computation	618	754	733	860	1,061	n.a.
Percent of New Freshmen Reporting	28%	32%	33%	36%	38%	n.a.

* Data in this table are based on the CDS methodology, which reports data for all first-time degree-seeking students who began their studies (both Full-time and Part-time) in the reported fall plus those starting in the prior summer.

** Official SAT (for external reporting) is the SAT reported to the Federal Government, U.S. News and World Report, and other external entities. The Average SAT Combined is computed by summing 4 SAT scores, for enrolled First-Time Degree-Seeking students, (SAT Verbal 25th and 75th Percentiles and SAT Math 25th and 75th Percentiles) and dividing the total by 2.

Note: "Official SAT" excludes scores for students who performed better on their ACT. "Official ACT" excludes scores for students who perform better on their SAT.

Nursing & Health Studies	86	93.0%	133	96.2%	182	92.9%	168	91.1%	193	95.9%	4.8%	2.8%
Full-Time New Freshmen	2,042	90.9%	2,185	92.4%	2,342	92.8%	2,180	90.6%	2,339	92.8%	2.2%	1.9%

Note: The fall-to-fall retention rate is the percent of full-time students enrolled at benchmark in one fall who re-enrolled or graduated by benchmark of the next fall.

N is total number in first fall cohort; % is the percent who returned/graduated adjusted for deceased. % is replaced with "n.a." if N is 3 or less.

Source: IRSA Retention Rate (Benchmark) Database

GRADUATION RATES FOR FULL-TIME DEGREE-SEEKING STUDENTS
Trend Data

GRADUATION RATES							
Time to Degree	Cohort Year*						
	2011	2012	2013	2014	2015	2016**	2017**
4 years or less	72.4%	69.8%	72.9%	72.1%	73.1%	73.7%	70.9%
5 years or less	82.4%	80.4%	81.5%	81.8%	81.8%	81.9%	n.a.
6 years or less	83.7%	81.9%	83.1%	82.9%	83.5%	n.a.	n.a.
Number in Cohort	2,138	1,981	2,110	2,052	2,056	2,040	2,182

* Graduation rates are based on the U.S. Department of Education's methodology: Cohort is degree-seeking students who enrolled for the first time in college either in the fall or in one of the two preceding summer sessions and who were enrolled full-time in that fall. Graduation rates are the percentage of the cohort who earned a degree in the time indicated (time to degree is through August 31st of degree year). Deceased students are excluded.

** Preliminary, unofficial

PERCENT OF UNDERGRADUATE CLASS SECTION BY CLASS SIZE
Fall Semester, 2021

Note: Class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Excludes online classes, non-credit classes, dissertation, thesis research, individual study, practicum, and private music courses, or one-to-one readings. Excludes students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes.

Includes classes that have been moved online in response to the COVID-19 pandemic.

PERCENT OF UNDERGRADUATE CLASS SUB-SECTION BY CLASS SIZE
Fall Semester, 2021

Note: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, excludes noncredit classes, individual instruction, music instruction, or one-to-one readings.

Note: Data are for all University libraries, including the Richter Library and libraries in the Schools of Architecture, Business, Law, Medicine, Music, and the Rosenstiel School.

1 Includes print and electronic books & volumes.

2 Includes both print and electronic journal titles.

3 E-books are electronic publications, including reference books, multi-volume sets, monographs, and other non-serial books that are distributed online.

4 E-journals are full-text serial publications either wholly received in electronic format or the electronic equivalent of the print version.

5 Number of database subscriptions.

6 Total items held in the Institutional Repositories (includes both the Scholarly Repository and Law School IR).

7 Number of successful full-text journal article requests. In 2021 the sources used to measure full-text journal article requests were altered and updated to a newer standard of usage statistics called Counter 5.

8 In 2021 the sources used to measure E-Book usage were altered and updated to a newer standard of usage statistics called Counter 5.

9 Website pageviews of UML Digital Collections.

10 Total pageviews or downloads of scholarly assets from Institutional Repositories (includes both the Scholarly Repository and Law School IR). Data has been retrieved through Digital Commons - bepress software and prior to the implementation of Esploro, the University's new Research Information Management system.

11 Due to Covid-19, UM Libraries had restricted access across all libraries' spaces. Effective from March 16th, 2020 through the remainder of the spring semester.

12 Total number of presentations offered by UM Libraries as part of bibliographic instruction, credit class, cultural, recreational, or educational purposes. Includes both in-person and online engagement.

13 Includes both in-person and online engagement.
